MEMORANDUM

November 13, 2018

To: Atlantic Herring Management Board, Technical Committee, Advisory Panel and Interested Parties

From: Toni Kerns, ISFMP Director *TK*

RE: Change in Area 1A Trimester 3 Effort Controls

The Atlantic States Marine Fisheries Commission's Atlantic Herring Management Board members from Maine, New Hampshire, and Massachusetts revised the effort control measures for the 2018 Area 1A Trimester 3 (October 1 – December 31) fishery. Board members, with input from industry, agreed to seven (7) consecutive landing days until 92% of the Area 1A sub-ACL is projected to be harvested. Vessels may only land once every 24-hour period.

- **Beginning on November 16, 2018:** Vessels in the States of Maine and New Hampshire, and the Commonwealth of Massachusetts may land Atlantic herring starting at 12:01 a.m. on seven (7) consecutive days a week.

Trimester 3 landings will be closely monitored and the directed fishery will close when 92% of the Area 1A sub-ACL is projected to be reached. Fishermen are prohibited from landing more than 2,000 pounds of Atlantic herring per trip once the fishery is closed. For more information, please contact Megan Ware at 703.842.0740 or mware@asmfc.org.
