## **ASMFC Northern Shrimp Section Approves Public Hearing Document on Draft Amendment 3 for Public Comment: New England States Schedule Public Hearings**

Arlington, VA – The Commission’s Northern Shrimp Section (Section) releases Draft Amendment 3 to the Interstate Fishery Management Plan (IFMP) for Northern Shrimp for public consideration and input. The states of Maine, New Hampshire and Massachusetts have scheduled their hearings to gather public comment on the Draft Amendment. The details of those hearings follow.

### **Maine Department of Marine Resources**

The Section initiated Draft Amendment 3 with the intention of considering a limited entry program to address overcapacity in the fishery. In the 2010 and 2011 fishing seasons, increased fishing effort and untimely reporting resulted in early season closures and an overharvest of the total allowable catch (TAC).

---

The Atlantic States Marine Fisheries Commission was formed by the 15 Atlantic coastal states in 1942 for the promotion and protection of coastal fishery resources. The Commission serves as a deliberative body of the Atlantic coastal states, coordinating the conservation and management of nearshore fishery resources, including marine, shell and diadromous species.

The 2012 fishing season was further restricted, resulting in a 21-day trawl season and a 17-day trap season. In the 2013 fishing season, despite the fact that only 55% of the TAC was harvested, the fishing mortality rate (0.53) was estimated above the target (0.38). In December 2013, the Section established a moratorium for the 2014 fishing season due to recruitment failure and a collapsed stock. The moratorium was maintained each year, through 2017, in response to the continued depleted condition of the stock.

Due to the uncertainty about if and when the resource would rebuild and the fishery reopen, the Section shifted the focus of Draft Amendment 3 to consider measures to improve management of the northern shrimp fishery and resource. Proposed options in the Draft Amendment include state-by-state allocations and accountability measures to better manage effort in the fishery. The Draft Amendment also explores the mandatory use of size sorting grate systems to minimize harvest of small (presumably male) shrimp, as well as reporting measures to ensure all harvested shrimp are being reported.

Fishermen and other interested groups are encouraged to provide input on the Draft Amendment either by attending public hearings or providing written comments. The Draft Amendment can be obtained at [http://www.asmfc.org/files/PublicInput/NShrimpDraftAmd3\\_PublicComment.pdf](http://www.asmfc.org/files/PublicInput/NShrimpDraftAmd3_PublicComment.pdf) or via the Commission's website, [www.asmfc.org](http://www.asmfc.org), under *Public Input*. Public comment will be accepted until 5:00 PM (EST) on June 21, 2017 and should be forwarded to Max Appelman, FMP Coordinator, 1050 N. Highland St, Suite A-N, Arlington, VA 22201; 703.842.0741 (FAX) or at [mappelman@asmfc.org](mailto:mappelman@asmfc.org) (Subject line: Northern Shrimp). For more information, please contact Max Appelman at [mappelman@asmfc.org](mailto:mappelman@asmfc.org) or 703.842.0740.
