MEMORANDUM

July 16, 2018

TO: Coastal Sharks Management Board, Advisory Panel and Technical Committee

FROM: Kirby Rootes-Murdy, Senior FMP Coordinator

RE: Retention Limit of Aggregated Large Coastal Shark and Hammerhead Shark Management Groups Increased to 36 Sharks per Trip

The National Marine Fisheries Service (NMFS) has increased the retention limit for the commercial aggregated large coastal shark and hammerhead shark management groups (Appendix 1) for directed shark limited access permit holders in the Atlantic region from 3 to 36 sharks per vessel per trip effective July 18, 2018. The revised retention limit will remain in effect for the rest of the 2018 fishing season or until NMFS announces another adjustment to the retention limit.

This action is intended to promote equitable fishing opportunities in the region, while allowing quota to be harvested throughout the year. All other retention limits and shark fisheries remain unchanged in the Atlantic region.

As agreed upon by the Commission's Coastal Sharks Management Board (in December 2015), the Commission will follow NMFS for in-season changes to the commercial retention limit, therefore, no more than 36 sharks per vessel per trip may be retained from the aggregated large coastal and hammerhead management groups by **a state licensed fishermen** effective July 18, 2018.

The Federal Register commercial retention limit notification can be found at:

<https://www.fisheries.noaa.gov/bulletin/noaa-fisheries-increasing-large-coastal-shark-retention-limit>

Shark landings can be found at: <https://www.fisheries.noaa.gov/atlantic-highly-migratory-species/2018-atlantic-shark-commercial-fishery-landings-and-retention>.

Please contact Kirby Rootes-Murdy, Senior Fishery Management Plan Coordinator, at (703) 842-0740 or krootes-murdy@asmfc.org if you have questions.

M18-63

Appendix 1

The list of the species within the aggregated large coastal shark and hammerhead management groups.

Aggregated Large Coastal	
Silky	<i>Carcharhinus falciformis</i>
Tiger	<i>Galeocerdo cuvier</i>
Blacktip	<i>Carcharhinus limbatus</i>
Spinner	<i>Carcharhinus brevipinna</i>
Bull	<i>Carcharhinus leucas</i>
Lemon	<i>Negaprion brevirostris</i>
Nurse	<i>Ginglymostoma cirratum</i>
Hammerhead	
Scalloped hammerhead	<i>Sphyrna lewini</i>
Great hammerhead	<i>Sphyrna mokarran</i>
Smooth hammerhead	<i>Sphyrna zygaena</i>
