The Draft Addendum proposes options to better manage the Area 1A (inshore Gulf of Maine) sub-annual catch limit (ACL) under low quota scenarios. This action responds to the challenges encountered in managing the reduced sub-ACL based on the 2018 benchmark stock assessment, which highlighted declining trends in recruitment and spawning stock biomass.

Currently, the Board can allocate the sub-ACL throughout the fishing season using bi-monthly, trimester, or seasonal quota periods to meet the needs of the fishery. For the 2019 fishing season, the Board implemented a bimonthly quota period approach to maximize use of the reduced sub-ACL when demand for bait is high. Due to the low quota, the 2019 fishery experienced frequent closures to avoid an overage.
The 2020 sub-ACL (3,344 mt) is lower than in 2019, creating further challenges in distributing the quota throughout the fishing season. The Draft Addendum considers additional tools to provide the Board more flexibility in specifying the allocation under low quota scenarios and meet the needs of the herring fishery moving forward. Additionally, the Draft Addendum considers expanding landing provisions across different permit categories within the days out program. The Board utilizes days out of the fishery and weekly landing limits to adjust the rate of Area 1A catch. The Draft Addendum includes options that apply weekly landing limits to all vessel categories landing herring in Area 1A throughout the entire fishing season.

Interested groups are encouraged to provide input on the Draft Addendum either by attending state public hearings or providing written comment. The Draft Addendum will be available at http://www.asmfc.org/files/PublicInput/AtlHerringDraftAddIII_PublicComment.pdf. Public comment will be accepted until 5:00 PM on March 25, 2020 and should be forward to Kirby Rootes-Murdy, Senior FMP Coordinator, 1050 N. Highland St., Suite 200 A-N, Arlington, Virginia 22201; 703.842.0741 (fax) or at comments@asmfc.org (Subject line: Atlantic Herring Draft Addendum III).
